## DETAILED ACTION

### *Drawings*

1. The drawings are objected to because the signs "13", "15", "H". Correction is required.

### *Specification*

2. The abstract of the disclosure is objected to because it refers to purported merits or speculative applications of the invention, see the first sentence. Correction is required. See MPEP § 608.01(b).
3. The disclosure is objected to because of the following informalities: the sign "H" is not in the drawings. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102 & 103***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-11 are rejected under 35 U.S.C. 102(b) as clearly anticipated by DE 197 06 408 or, in the alternative, under 35 U.S.C. 103(a) as obvious over DE 197 06 408.

DE 19706408 clearly shows the claimed invention in the Figures.

In the alternative, even if it is argued that DE 19706408 lacks the specific dimensions, it would have been obvious to one having ordinary skill in the art at the time the invention was made to these specific dimensions or any dimensions depending

obtain the type and size of the intended workpiece, because it has been held that discovering an optimum value of a result effective variable involves only routine skill in the art.

**Conclusion**

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
